Tom & Doug,  
I added SFD language in yellow font in the attached file. Please review and let Sara and I know if you have any suggested changes. Thanks.

Sam Borries

Tom and Sam,

Here is the draft hot issue we put together for manganese in SE Chicago. We put some placeholders in with a line on each case for you, if you wouldn't mind adding language. I don't know if you actually have much to say on Watco at this point. Perhaps we should just say the Senators have asked for soil sampling. Assuming that soil sampling is likely, we are working on getting you specifics about the data we have so far.

We are guessing as to format, based on what Rhiannon sent us for the EtO request.

Thanks,  
Sara

So this is the format Katie used.

Hi Katie.

For EtO, we just need a current hot issue write-up. Attached is the one that was pulled together last month. Please review and send back an updated version by COB Thursday. Thanks.

Hi Eileen and Rhiannon,

Hope you've been well! I am following up on this request. Please let us know if you need anything related to EtO. Thanks!

Katie Siegel, Chief  
Air Toxics and Assessment Branch  
Air and Radiation Division  
U.S. EPA Region 5

Cathy is going to reach out to Sens. Durbin and Duckworth next week to give a heads up about the upcoming cleanup at the SH Bell site. She would like some talking points for discussing the cleanup, and also for answering questions about other topics we think could come up. These include southeast Chicago manganese (SH Bell and Watco) and Illinois EtO emissions.

Could you ask the appropriate folks in your office to work with Rhiannon Dee and Eileen Deamer to pull something together? I know we've got a desk statement about the cleanup and I think briefing papers on the other topics have been pulled together recently, too.
